AGAWAM LODGE

Loyal Order of Moose

No. 1935

The attendance of Moose at the Lodge has become larger and more social. After eating many played pool and games but many were too full of delicious lobster, lobster rolls, clams, grinders or hamburgers, etc., to do more than sit around the piano and sing. The 10:30 to 11:30 sing along was impromptu but Brian Asta-Ferraro at the piano, Buddy Baker, Wil Bissonnette, and Frank Smith and all the others seemed to enjoy it. Our thanks to all who worked in the kitchen and served the food: The Perry's, The LaBelle's, the Smith's, the Higgin's and the Waterman's. (If we missed anyone, we're sorry.)

Although the attendance was small, the Moose Auction held Saturday at the Southwick Auction Center was considered a success financially. Those who left early missed some of the small specials that were worth framing and some good buys. We still have for the asking, white Servel refrigerator, 30-in. Kelvinator range and a gas cooking and oil heating stove but YOU must pick them up. Provide your own truck!

Gov. Dumond and Chairman

Bissonnette wish to thank all donors, workers, buyers, and especially the ladies who managed the refreshment stand. QUOTE

Fear is probably the commonest trouble with men and women today. People are afraid of unpopularity, of poverty, of loneliness, of pain to body or mind, of failure, of open spaces, of closed spaces, of other people, of life itself, and of death. Worst of all, many of afraid of they know not what. These fears rob us of true life. But there is any way of escape? The Bible is sure there is. But there is only one. It consists in learning to lean on God. Nothing can take us out of our Father's hands—A. HERBERT GRAY

Now We Understand

It is again that time of the year when the political kettle begins to brew! It boils quietly and is perhaps unobserved by many until the brew builds a head of steam. It is then that the voter must be careful in making his selection of candidates. We can apply one of two analogies in our discussion of steam.

One is the fact that steam has energy. When properly directed it creates a force which can propel. This energy under harness becomes exciting and productive. The second analogy is the fact that some steam vapors are wasteful and must be eliminated by one method or another until only the valuable component of the liquid is left. The first example could be the rhythmic steam engine used in vehicles or turbo-power plants. The second could be the wasteful steam separated from maple syrup.

I observe candidates for political office in the light of these two perspectives. I wonder what criteria you use to make your selection? Fortunately for me I know each of the candidates personally. Many of us are also acquainted with their past records and know which type of steam they generate.

I venture to write that it is my belief that a high percentage of voters would neither recognize by sight the candidate for whom they vote. They could not identify his honest pledge to serve and would be confounded if asked to list the candidate's past performances. Yet voters of this descrip-

tion will be the deciding factor in the forth coming primaries and the eventual election. This is the Democratic process but it is not best for the Democracy.

It is not my wish to exploit the assets and liabilities of any candidate. It is natural for so many to speak in derogatory fashion about people who seek public office. There are others who praise candidates simply on the basis that they have been introduced through one situation or another, have talked with them for a minute or two under pleasant social circumstances and from then on are convinced that "he is our man."

For those who read this column weekly let's work out together what makes a candidate the man of our choice. I must rank "HONESTY" as number one. I have said before that honesty has two phases. . .one is the material honesty under which a person can be trusted with physical things or he steals. The second honesty is the "mental honesty" by which your elected official proposes or votes for your welfare above his.

There are ever so many honest people but a great many lack dynamic energy. What good is honesty in a politician if he refuses to exercise it because he does not have the will to forcefully express it? He can never become a leader. He waits to be lead.

There are politicians who become impressed with their own pseudo-importance. They seek office because they want to carry a banner while they allow others to do the work they have never been an "Indian." They want only to be "Chief."

There are others who seek office who lack the vitality and perseverance to succeed. Holding political office is not an easy task. Your entire family is involved. This condition produces those who say "yes" at the caucus and when the rigors involved in enduring the office become frustrating they fold their tent and steal away.

There could be economic advantages in seeking political office. Some use the office as "side-line" income. I think I could rightfully put only the Assessor's office in this group. Others such as Town Clerk and Treasurer are average paying full time positions.

There could be listed next the political "plumbs" associated with the position. The Selectmen, for example, are the Licensing Commission. The Mass census for 1970 is sure to result in the granting of several new liquor licenses in our town. I do not intend to intimate any planned collusion might exist in any shape or manner and perhaps without coincidence we have at least five candidates from one political party going to the "starting gate."

I have told you nothing new, I'm sure, but I do strongly suggest that those of you who are young voters or for those who

lunches were served daily in the Agawam School Cafeterias during the month of September, at the low price of twenty-five cents per lunch (free to those children who could not afford this price). State and Federal financial assistance have made this price possible through USDA donated foods and the nine cents reimbursement for each Type A Lunch.

The National School Lunch Week theme this year is "School Lunch Means Good Nutrition."

School Lunch provides a well-balanced meal that will meet one-third of the child's daily nutritional requirements. Called the "Type A Lunch" the meal must follow the U. S. Department of Agriculture nutritional pattern.

School Lunch is "a vanguard of all learning. It is virtually impossible to teach a child who is too hungry to listen." Every child needs a Good Breakfast for efficient work during the morning sessions and a Good Lunch for the afternoon session of school.

School Lunch helps to build good eating habits by teaching the selection of foods needed each day.

School Lunch provides the opportunity for learning to accept all kinds of foods. Eating with other children often encourages a child to taste and eat foods he may think he doesn't like.

SCHOOL LUNCH MEANS GOOD NUTRITION.

are new to Agawam be real careful in your selection. I would insist on some sort of forum at which you could meet all the candidates. The truth is that many of these candidates refuse to go to forum sessions with the result that some proposed in past years by groups such as the Jaycees never materialized. This is unfair to you.

Look at the records of these candidates. Look at their record of attendance. Try to decide whether their platform is sincere and solid. Don't be prey to their false promises. There was never a man who ran this Town alone. We run it together. Choose the man whom you would like in office if you couldn't be there yourself.

George L. Reynolds, Selectman

A man was charged with using counterfeit money to pay a bill. At his hearing, the defendant pleaded that he didn't know the money was phony. Pressed for proof, he blurted, "Because I stole it. Would I be stealing money if I knew it was counterfeit?"

That made good sense to the judge, so he tossed out the counterfeit charge. But he substituted a new charge: theft.

"Sure, I stole it," the defendant conceded amiably. "But counterfeit money has no legal value. Since when is it a crime to steal nothing?"

No one could find any flaws in his logic, so the man went free. All of which shows that two wrongs—if the breaks are with you—can make a right.

SPORTSMEN'S CORNER

By BILL CHIBA

Some changes in fish and game regulations were made by the "5 Man Board" following a public hearing held on Friday, Sept. 26 at Westboro, Mass.

The following should make the deer hunter jump with joy... it certainly will make the manufacturer of hunting orange smile a dollar sign.

The following spec' were established for defining "hunter orange"; Hunter orange is a day-light fluorescent orange color with dominant wave length between 595 and 605 nanometers, excitation purity not less than 85% and luminance factor of not less than 40%.

Deer hunters, during the shotgun season for deer, are required to wear 400 square inches of hunter orange material on the chest, and back or on the chest, back, and head. This regulation goes into effect immediately. Shepard notes that the division will try to see that all sporting goods stores and Natural Resource Officers get samples of the upper and lower limits of the color range, as defined, to help sportsmen assure their garments fall in the correct color hue for hunting safety.

A year or so ago a couple of well known sportswriters (outdoor scribes) from the middle part of the state were touting a new orange hat to be worn by the hunter. We, in this corner, took the sale pitch with a grain of salt coming to the conclusion that if a person wanted to deck himself out in bright colors while hunting birds and rabbits it was his prerogative to do so. I for one, think it is sort of ridiculous to waltz through the brown grass and swale in search of birds with a garish orange hat on. Deer hunting is another story. The touters knew what they were doing. At the hearing the 26th of Sept., the "5 Man Board" ruled that starting in 1970 all persons hunting during the upland bird season on public shooting grounds or wildlife management areas where pheasants or quail are stocked are required to wear a "HUNTER ORANGE" not just a fluorescent orange, cap or hat. The stock of the company making the HUNTER ORANGE garments should be a good buy!

So much for high finance! Getting back to the sportsmen level, the Agawam Sportsmen's Club is holding turkey shoots every Sunday on the club grounds.

Jack Springer and Jack Hoadley are co-chairmen of the event. The club is located on Corey St., Agawam. Refreshments are also available to the public. The first round is capped off at 1:00 p.m.

The club is also touting a Luau Oct. 27th at 7 p.m., fabulous food and entertainment. Tickets are limited and the deadline for tickets is the 18th. The following members are chefs and each will prepare his specialty: Dick Schuhlen, Frank March, Dick Adleman, Tony Varuzzo, Jesse Natale, and Don Catchepaugh.

At a recent meeting of the Sandisfield Rod and Gun Club, President Renzo Balboni appointed a new fish and game committee. All young blood, and this is

FISHING FOR FROGS

If you're a hard working fisherman, the kind who doesn't like to quit even when the fish aren't biting, frogging may be just the spare-time sport for you.

Not only is frogging an exciting way to spend a night, but you'll have some good eating from your catches. Frog legs, breaded and deep-fried, are a gourmet's delight.

No special equipment is necessary to catch frogs. According to the fishing authorities at Mercury outboards, all you need is a good flashlight, a burlap bag, and a quick hand. There are other methods, of course, but catching them by hand is more sporting.

It usually takes two persons to frog by hand. One operates the boat, easing gently up to the frog while his partner leans over the bow, flashlight trained on the frog's eyes, ready to grab the frog when he's within range.

Be sure to squeeze tight once your hand closes around him. Frogs are slippery critters, and unless held tightly will jump and be gone. Once caught, a frog goes limp. Don't be fooled by this maneuver and relax your hold.

Have your buddy open the sack enough for you to reach in, and place the frog well down in the bag before turning loose. Be sure to keep the sack pulled tight around your arm as you slip it out. Otherwise, the frog may come out with you.

Other methods include gigging and hooking. The latter is done by tying a small piece of red cloth onto a hook which is attached to a line from a cane pole. Hooking is done during daylight. Flip the cloth near the frog, jiggle it once or twice and get ready to set the hook.

Gigging is done at night with a small, three-pronged gig on the end of a long pole.

It takes several years for a bullfrog to reach eating size, therefore the gang at Mercury suggest you use the hand catching method and release those frogs which are too small.

what is lacking in most of the sporting clubs today. Joe Montagna will be chairman, assisted by William Reno, Bernie Patruski, Paul Bouchard and Bill Wilson. The committee will stock wild hare and stock trout in local waters. Last year 350 fish were stocked for the fishermen.

The club expected the resignation of Tony Dulski from the Board of Directors and the Executive Board will fill the vacancy. Balboni appointed Barbara Mathews, Paul Furlani, and himself as delegates to the County Council of Sportsmen. The club will have a booth in the coming Sportsmen and Boat Show to be held the 16-17-18 of Jan. 1970. Plans are being formulated for the annual banquet of the club. All monies raised from dues and the banquet are expended for the stocking of rabbits and fish for the sportsmen. Dues in the Sandisfield Rod and Gun Club are only \$2 per year. Can you afford it?

TODAY'S AGRI-FACT

If you're wondering just how many shrimp you get to the pound when you order jumbo, medium and small shrimp, there are fifteen or fewer jumbo shrimp to the pound, ranging all the way down to about 40 small shrimp to the pound. Except in markets near fishing grounds, most shrimp sold over the counter are just the tails.

COACH'S CORNER . . . by Cliff Kibbe

The Greenfield game was exactly what was needed for our ball club. It is difficult after a loss such as ours to Chicopee to get "up" for the next game but

Frank Santinello and Don Progulski. The end play of Chip Kistner and Len Caron was generally good. We, as coaches, were satisfied with the performance knowing, however, that more is needed to beat Holyoke.

Holyoke is probably the most explosive team in the valley. They have three very fast backs but we with an outstanding effort, hope for a victory Saturday. This will be our first home game of the season.

At this writing, we do not know how our injuries will come along. This could be crucial as we have little depth.

The coaching staff felt that Frank Santinello was the out-

the boys realized that for us to have a successful season we needed a win.

The coaches felt that with the high wind we had to have a ground game and play possession ball. We gained 288 yards on the ground and threw only four passes, completing two. The line play was led by Nick Longhi, Don Young and Chip Shearer. Defensively we felt that Don Young and Dana Raymond in addition to Bob Morin and Paul O'Brien

standing offensive threat and Mike Drewnowski, the outstanding defensive back. In the line we felt that Nick Longhi was offensively our best and Don Young our best defensive lineman.

SPEECH PATHOLOGY PROGRAM

Speech pathology is the area of professional specialization which has developed out of concern for people with disorders in the processes of communication. Recognizing the need for speech, hearing and language therapy in the hospital community, the Northampton VA Hospital offers a program designed to provide qualifying veterans remedial speech services on a two-morning per week basis. Candidates for individual and small group therapy sessions are referred to the speech pathology consultant by staff physician. Clinical services for those impaired in speech and/or hearing include the initial evaluation and subsequent diagnosis of the problem by a wide variety of diagnostic procedures followed, when indicated, by a therapeutic program of treatment geared to the individual needs of the patient.

Mrs. Andrienne Terrizzi joined the staff at the VA Hospital and Physical Medicine and Rehabilitation Service as the speech pathologist. She is also Clinical Supervisor of graduate students in Communication Disorders at the University of Massachusetts who are assigned to the program at the hospital. She holds certification in the American Speech and Hearing Association, an A.B. degree in speech therapy from Douglas College and her M.A. in speech pathology and audiology from Seton Hall University. We will need volunteers for the occupational therapy at the Veterans Administration Hospital — Can you spare some time?

PRESIDENTS COMMENTS: In checking the chairmanships (Community Service) we find that in order to be credited with the many hours, effort and money, the Auxiliary MUST report the project as having been completed within June 1, 1969 and June 1970. As each project is

Since 1952 we have struggled to do all the things that we are organized for (Rehabilitation, Hospital work, Buddy Poppy Drive, Community Service, Legislation, Americanism, etc.), but now the load is getting heavier and we need help. To carry on these and other worthwhile programs requires a large membership and help. Won't YOU join us and do your share? If you are a member please remember the dues are due NOW. Can you become an active volunteer if only for 4 hours a day? Isn't there something you can do to help. Many hands make light work.

FALL SUPPER

Hot dogs and green peppers combines nicely for a tasty, economical fall supper:

Parboil six green peppers, then prepare 1-1/3 cups of precooked rice as directed. Then stuff peppers with 4 diced hot dogs mixed with rice, pepper, salt and butter. Spread bread crumbs seasoned with garlic on top. Bake in moderate oven 350 degrees for 40 minutes in pie pan with 1/4 inch water. Serves 6.

Our days are all the same size, like identical suitcases. But some people can pack more into them than others.

BEST BUYS from

MASSACHUSETTS FARMS

Courtesy of Massachusetts Department of Agriculture

Large yellow pumpkins, and colorful gourds, traditional harbingers of the Halloween season are among numerous headlines on a full list of "Best Buys" in native produce announced for this week by the Massachusetts Dept. of Agriculture. Buttercup, butternut, turban and hubbard squash share produce headlines with their Halloween-directed "cousins." All are plentiful and low priced.

Ideal weather contributes to an abundant supply of salad ingredients at economical prices, with chicory, escarole, Romaine lettuce, Boston lettuce, tomatoes, cucumbers, and parsley all plentiful.

California Wonder peppers are an especially good buy this week along with beets and native sweet corn, which will ironically disappear from the scene very shortly

just when at its flavor peak.

Weather conditions have been ideal for apple picking and the harvest is proceeding without interruptions as the supplies of both regular McIntosh and Cortland apples from local orchards continue to build up on produce counters with prices rated as reasonable.

The new cranberry harvest, second largest in history, is developing well, with new cranberries in abundance at reasonable prices.

Other produce making the money saving list this week include green, shell and wax beans, beets, cabbage, broccoli, eggplant, potatoes, carrots, cauliflower and turnips.

Eggs continue to be the best protein buy on the market, with mediums offering the largest savings.
